# New Keypad for ViconNet and VMDC is Now Available

Our new desk-top style keypad (VN-KEYPAD) for ViconNet video management systems, including VMDC, is now available. This new multi-function keypad conveniently connects and powers the system using a USB cable. The modern design combined with a 3 axis joystick and Jog/Shuttle playback control make it easy to use.

Support for this new keypad is available only with our latest video management software ViconNet 8.1. Also please note that keypad V1500-SCCS will be discontinued; however the V1411 keypad will be available for Vicon analog systems.

New Features & Functionality
Available with ViconNet version 8.1

- Compatible with ViconNet control systems, including VMDC

- Connection via USB as a serial device

- 3 function proportional joystick for pan, tilt and zoom

- Jog/Shuttle for playback

- Backlit rubber keys

- Fits both right and left-handed operators

- Connect up to 5 keypads to the same ViconNet PC or VMDC
