

Vicon Simplifies IQeye Camera Line

With the recent exciting introduction of the IQeye 9 series megapixel camera line, older legacy IQeye camera models are being phased out. As such, the current 7 series box camera and the R5 bullet cameras will become unavailable when current stock levels are depleted.

Below is a table outlining the current stock levels of all models being discontinued. These items are available on a “first-come first-serve” basis, so once inventory is depleted no more will be produced. Please contact your local Vicon [sales representative](#) for additional camera model options.
