Health Dashboard • Audit Log • Thick-Client Option

Vicon Company Highlights

Vicon delivers innovative products at every layer of the security solutions stack.

A Single-Source Supplier

Simplify your IT and security system with an end-to-end solution.

User Friendly Design

Spend less time troubleshooting and setting up overly complex systems.

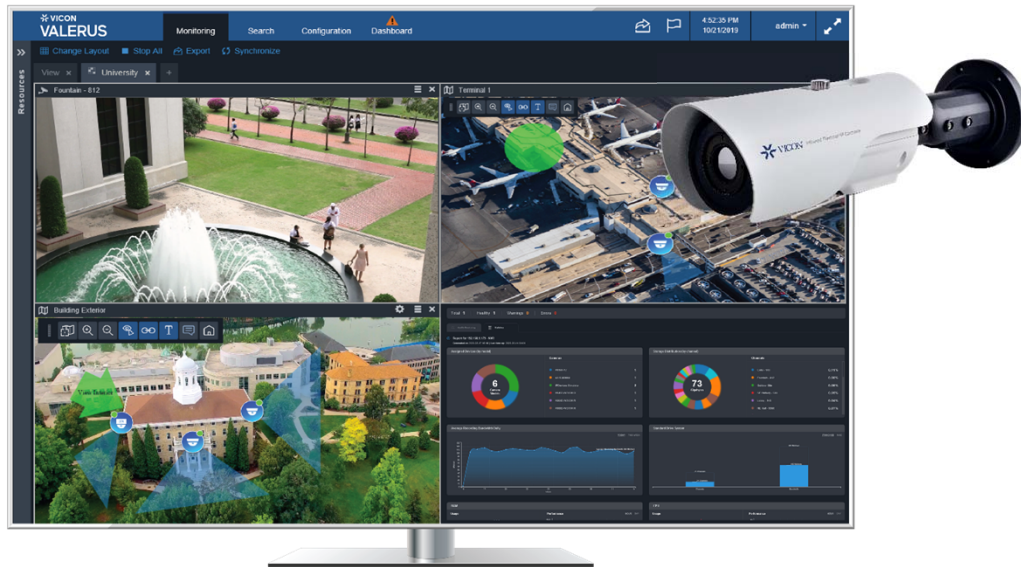

World Class Support

Our engineers are dedicated to resolving even your toughest challenges.

From our advanced Video Management Software to our diverse product line of network and analog cameras and our flexible VAX Access Control solution, we deliver superior image quality and maximum coverage to match all of your security solutions. When these products are combined, they work seamlessly together to provide an end-to-end solution for your security needs. We offer a variety of options that let you customize your own powerful, scalable and cost-effective surveillance solution.
