

Top Reasons Why Vicon is Your Go-To Provider in 2022 Q&A

What is the anticipated release date of the LPR Camera?

We are targeting an April release.

Will the new Valerus Client for Macs be optimized for the M1 chips?

Yes! The new Valerus desktop Client will be optimized for M1 Macs.

How might a mere mortal man face and defeat Kracken?

The head of Medusa.

Are there any plans to introduce a turret style camera?

Yes, we're working on adding a turret camera to our camera portfolio. We will share more details as they become available.

Does the new Valerus work with browsers other than Internet Explorer?

Valerus 22.1 will still require Internet Explorer; however users also have the option and are encouraged to use our Microsoft Edge tool, [found on this page](#). Our desktop Client will be available soon for users who prefer not to use IE.

What is going on with the encoders?

An NDAA version of our 16-channel encoder is planned for release this summer.

Do you have a rep in Minnesota?

While we are currently searching for a dedicated Regional Sales Manager for that region, we still provide immense support and have a member of our Sales Team temporarily providing assistance.
