

Release Notes

January 2023

Updated Version 2.15.0.0 of the PRONTO Device Manager Utility

General Description

Vicon is releasing an updated version of PRONTO Device Manager discovery tool, version 2.15.0.0. This application discovers, manages and updates Vicon cameras from a single interface, eliminating the need for multiple discovery tools.

Installing PRONTO does not require any licensing. This updated software is available on Vicon's [website](#).

Product	Previous version	New version
PRONTO Device Manager utility.	Version 2.10.0.0	Version 2.15.0.0

Vicon Production

Pronto Device Manager and User Guide can be downloaded from Vicon's website: <https://www.vicon-security.com/software-downloads-library/pronto-device-manager-software/>

Version 2.15.0.0 of the PRONTO Device Manager Utility contains a complete FW library of all released firmware versions up till Jan 1, 2023, as well as a FW Definition file with all current camera models.

New Features:

New camera models

Support for several new cameras models was added:

New camera models supported:			
V2002D-W28IRM	V2005D-W28IRM	V2005D-W818MIR	V2005B-W818MIR
V2008B-W310LPR	V2008B-W818LPR	V2008-WNL-LPR	V2008D-W818MIR
V2008B-W818MIR	V2005CNR-W24IR	V-CELL-HD-C	V-CELL-HD-CMOD

Fixed Issues:

Help File

A problem was fixed, where the utility did not use a proper reference to the location of the Help file.

Incorrect model number

The reference file of the utility had an extra '0' in the filename for certain cameras (Model V2008B-xxx). This caused problems referencing the correct firmware. This has been corrected.

Incorrect FW reference

The reference file of the utility had a pointer to the incorrect firmware for certain models (Model V2008B-W310LPR). This has been corrected.
